

TRANSPOSING IS KING!

FROM DIGGING DEEPER VIDEO #185

Transposing is the act of moving an idea, a melody or a set of chord changes, to a different pitch area, into a different key. The ability to transpose is the ability to be musically flexible, to respond to different situations, and to expand upon an idea. Flexibility is important in real life, and it is no less important in music. Do your jazz yoga, people!

Important Progressions and Root Motions to begin with:

- 1) Circle of Fourths C > F > Bb > Eb > Ab > Db > Gb > B > E > A > D > G
- 2) Chromatic C > C# > D > Eb > E > F > F# > G > Ab > A > Bb > B
- 3) The chords of the song you are practicing this week.

#1 - Idea based on "the root"

#2 - Idea based on "the triad"

#3 - More complicated idea, adjusted on the D7

#4 - Take The "A" Train
