

THE POWER OF PATTERNS

FROM DIGGING DEEPER VIDEO #193

We see patterns all around us, in architecture, design, fine art and nature. Humans are very attuned to patterns, and patterns help us sense when there is organization at work, when there is something other than randomness happening. Patterns are strong tools.

There are endless patterns to work on and use, and *that* is the problem. The solution?

- 1) Pick ONE pattern to work on.
- 2) Work on it, a lot. Days, weeks and months. Get comfortable and fluid with it.
- 3) Learn where to apply it. What harmonic settings? Which rhythmic situations?

#1 - C major scale in ascending 3rds

#2 - C major, alternating ascending 3rd and descending 3rd

#3 - G pentatonic

#4 - G pentatonic in ascending 3rds

#5 - G pentatonic, alternating ascending 3rd and descending 3rd

#6 - This I Dig Of You (Hank Mobley)
