

CESH

#1

F-7 ascending minor line cliché

Eb (ascending maj. line cliché)

1. the descending CESH and some b7 down a half step to 3rd of dominant movements are all very important in jazz.

Try also these other two CESH ideas:

1) the ascending minor line cliché, from the 5th of the minor chord up in half steps.

2) on major chords ascend start on the 5 and go up in half steps to #5 to 6
