

"THE BASIS OF EVERYTHING" LICK

FROM DIGGING DEEPER JAZZ VIDEO #24

This sheet is all about the "7th of the minor chord" resolving to the "3rd of the dominant chord" in a ii - V type progression. On this sheet, in this key, we are talking about the C resolving to a B. Half step resolutions, baby! Jazz musicians didn't invent it, but we sure as hell use it ALL THE TIME.

WHAT TO DO - 1) Get this sound "in your ears." 2) Learn some of these classic licks. 3) Look and listen for "fancier versions" of this resolution in your favorite players (delayed resolutions, playing ahead of the changes, longer enclosures, etc). 4) Invent your own, and become fluid with this "turn of phrase." It's just language!

1 18

Dm7 G7 Dm7 G7

2 28 29

Dm7 G7 Dm7 G7 Dm7 G7

3

Dm7 G7(b9) Cmaj7

enclosure to the B

4

Dm7 G7(b9) Cmaj7

Delayed enclosure to the B
