

# SOME GREAT RHYTHMS FOR SOLOING

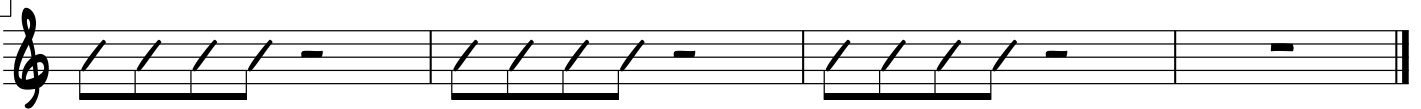

The idea is to play these rhythms with INTENT. To really "mean them" when we play them. Play these rhythms over and over, which will give us Experience with them. Lots and lots of reps. Lots.

All those reps will give us Experience with the rhythms, and Experience is where we gain Confidence with them. So Confident they are memorized. And, if we can play with Confidence, we can use just a bit more focus . . . and play with Intent.
