

HOW TO CREATE LONGER LINES (C)

BY JEFF ANTONIUK

Playing longer bebop lines, impressive strings of 8th notes (or 16th notes) is really all about having a couple types of building blocks at our disposal. Get good at these five shapes, and then get good at linking them together!

- Enclosures
- Arpeggios
- Scales (typically bebop scales)
- Chromatic Approaches
- Digital Patterns (1-2-3-5, 1-2-3-4-5-3-2-1, etc.)
