

SOLO BETTER! (W. CALL & RESPONSE)

FROM DIGGING DEEPER VIDEO #107

I think it's about time you soloed better. I'm sure you agree. A lot of "soloing better" gets down to being organized with our thoughts. We have to express coherent ideas to the audience, or it "doesn't sound good." And, let's not forget that we are MAKING THIS STUFF UP, we are improvising. It's a tall order to be 100% organized, when you have no ideas what you are going to be doing, what you'll be playing, 2 seconds from now.

A hint is to CHEAT. Use something that works EVERY TIME. Something SIMPLE and something you ALREADY KNOW. Call & Response, baby! Here are some elements to use in your Call & Response.

- Rhythm - Melodic Repetition - Melodic Development - Shape - Transposition -

Speak Low - "A" section (Kurt Weill)

The image displays four staves of musical notation for the "A" section of "Speak Low" by Kurt Weill. Each staff is divided into two measures, with the first measure circled in red and the second measure containing a red arrow pointing right, indicating a call and response pattern. The notes are represented by slashes on the staff lines.

- Staff 1: First measure circled with Gm^7 and C^7 ; second measure with Gm^7 and C^7 .
- Staff 2: First measure circled with Gm^7 and C^7 ; second measure with $A\emptyset^7$ and D^7 .
- Staff 3: First measure circled with Bbm^7 and Eb^7 ; second measure with Bbm^7 and Eb^7 .
- Staff 4: First measure circled with Dm^7 and G^7 ; second measure circled with Gm^7 and C^7 ; third measure with $Fmaj^7$ and Am^7 ; fourth measure with D^7 .
