

WHAT KEY ARE WE IN?

FROM DIGGING DEEPER VIDEO #112

Knowing what key we are in is important for many reasons. How are we going to have a meaningful conversation if we don't actually know what the topic is we are talking about? Determining the key of a song (or the "key of the moment") isn't always the most straight forward thing to do, but the process is usually quite similar from song to song. The QUALITY of the chord is a big determiner into how the chord is functioning, and in telling us where home base (the key) is.

#1 - "ii - V - I" progression in C major

#2 - "How My Heart Sings" (measures 1 - 9)

#3- "All The Things You Are" (measures 1 - 8)

#4 - "Yesterdays" (measures 9 - 14)
