

PLAY IT LIKE YOU MEAN IT! (BLUES BLOCKS)

FROM DIGGING DEEPER VIDEO #84

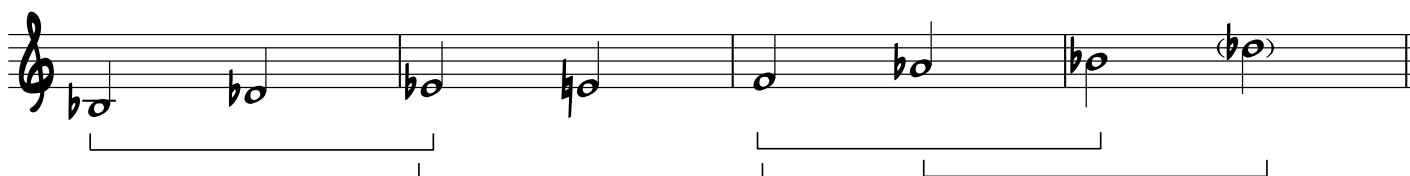

Playing with CONFIDENCE is one of the grandest goals an artist can have, playing "like we mean it." This involves control of our instrument, control of our tone and time, control over feel and groove, harmonic sense, knowledge of the song we are playing, and so much more. It sounds almost impossible, but it's not. This doesn't have to take 15 years of practice.

CONFIDENCE is, in large part, a byproduct of ORGANIZATION. Organizing objects, sounds, knowledge, our own thoughts . . . with INTENT. Let's look to a great melodic device, a great scale to give us a huge jump start in this direction. Let's "organize" the Blues Scale.

Bb Blues Scale

Some "blocks" of the Blues Scale that I like

Block #1

Block #2

Block #3

Block #4
