

THE BRIDGE! (RHYTHM CHANGES 404)

FROM DIGGING DEEPER VIDEO #91

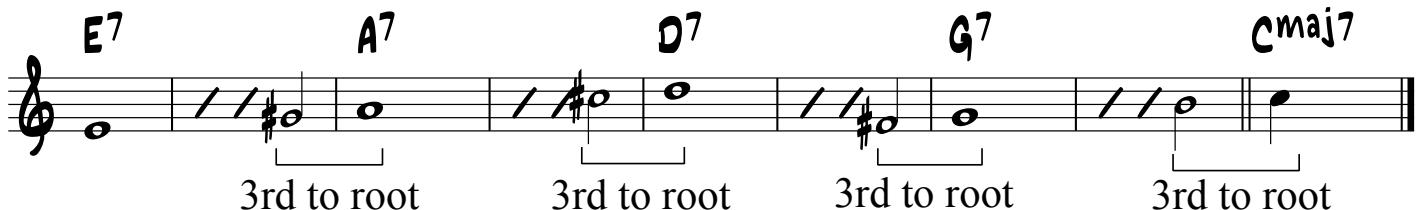

We spent three previous Digging Deeper videos on the "A" section of Rhythm Changes, so it's only fair that we dig into the Bridge a bit as well. The previous video (#90 - Circle of Fourths) will give you a great perspective on these chords, where they come from, and some great practice tools and advice. Check it out!

Being successful on the Bridge of Rhythm Changes is really all about "how many melodies you know." Can you play a good melody over two measures of a D7 chord? Can you play a good ii-V melody that lasts two measures? If so, you are burning over these chord changes. Congrats. If not, now we know what to work on!

#1 - "B" Section (Bridge) of Rhythm Changes

#2 - Bridge, with resolutions

#3 - Bridge, with ii - V's
