

VOICE LEADING #2 - "IN WALKED BUD"

FROM DIGGING DEEPER VIDEO #68

Voice Leading is a great tool for us to use in our improvised solos. It is also "composed into" many tunes, as we'll see below in this Thelonious Monk song.

To begin with, it seems almost impossible that we could be thinking so far ahead (voice leading), as we are busy trying to improvise a solo. But, don't you do this exact thing a thousand times a day when you speak? You begin a sentence, with no earthly idea of how long that sentence will be, what words you will use, or even what the last word you say will be. Yet you regularly speak with no problems! Music is a language, and like we don't need to be "talented" to speak in our native language, we don't need to be "talented" to play a jazz solo, or to voice lead. It just takes some practice and some listening.

In Walked Bud (Thelonious Monk) - first 8 measures

Musical notation for the first 8 measures of "In Walked Bud" by Thelonious Monk. The notation is in treble clef and shows the following chords and melodic lines:

- Measure 1: Fm (F minor)
